Course Title: On-Site Training in Dental Assisting

Course Description: Provides clinical experience within the private practice community by exposing students to the fast-paced dental office environment in which the student performs chairside and support services with an established team. Focuses on chairside assisting in general dentistry at two different clinical sites. Students will complete the required number of clinical hours at the two assigned facilities. Prerequisites: DNA 100 through DNA 190. Laboratory 24 hours per week.

General Course Purpose: This course, which replaces DNA 140 as a requirement for the Dental Assisting Certificate, meets (and exceeds) the requirements of the Commission on Dental Accreditation (CODA) to provide students with a minimum of 300 clinical hours working with a dentist. This CODA standard was approved in 2013 and began implementation January 2014. In this course, students will be exposed to private practice longer each week than in previous clinical courses, which will improve their training and experience.
