J. Sargeant Reynolds Community College
Course Content Summary

Course Prefix and Number: EDU 287
Credits: 3

Course Title: Instructional Design for Online Learning (IDOL)

Course Description: Prepares educators to design online courses that encourage active learning and student participation. Focuses on instructional design practices including the development of content tied to learning objectives and a peer-based approach to evaluating courses. Prerequisites: IDOL enrollees must have basic computer skills, be familiar with how to navigate the World Wide Web and have used Blackboard/Canvas for a minimum of one semester (as a supplement to a face-to-face class will fulfill this requirement). Lecture 3 hours per week.

General Course Purpose: The purpose of IDOL is to certify faculty to create online course content for the VCCS. Those enrolled in IDOL will learn how to analyze their students, write proper learning objectives, become compliant with ADA standards, select resources for use in their online classroom, actively engage their learners, and methods to evaluate and revise their online course.

Course Prerequisites and Co-requisites:
Prerequisites: IDOL enrollees must have basic computer skills, be familiar with how to navigate the World Wide Web and have used Blackboard/Canvas for a minimum of one semester (as a supplement to a face-to-face class will fulfill this requirement).

Student Learning Outcomes:
Upon completing the course, the student will be able to
a. Identify the six steps of the ASSURE model and explain how each step is used in designing lesson plans for a course;
b. Summarize the eight (8) General Review Standards of the Quality Matters™ rubric, and design learning modules for an online course to meet the 17 essential 3-point review standards of the rubric;
c. Demonstrate the completion of a course design project that includes three separate deliverables in the form of a “Start Here” content area, a course syllabus, and at least one learning module that follows the guidelines of the ASSURE model and the QM™ rubric;
d. Write course-level and module-level learning objectives that are observable and measurable;
e. Apply the concept of alignment to ensure that assessment and measurement, resources and materials, learner interaction, and multimedia technology are all directly tied to the learning objectives of the course and learning modules;
f. Identify basic principles and core concepts of the Americans with Disabilities Act (ADA) and design a statement that directs students to ADA policies and/or guidelines for the institution;
g. Identify the three forms of learner interaction within an online course and design activities which foster learner interaction;
h. Select and create three multimedia elements and/or materials that support the learner’s course outcomes as stated in their course design project;
i. Design and develop assessment strategies that measure effective learning and assess student progress; and
j. Identify the key components, which they have learned throughout this course, and describe how they will utilize them within their own online learning environment.

Major Topics to Be Included:

a. Analyzing learners
b. Writing measureable learning objectives
c. Selection criteria for learning objects
d. Communication guidelines
e. Incorporating learning objects into an online classroom
f. Voice boards
g. Student participation and engagement
h. Software and multimedia applications for online teaching
i. Evaluating and revising online courses
j. Quality Matters’ Rubric

Date Created/Updated (Month, Day, and Year): January 29, 2019
