Course Prefix and Number: HLT 190  
Credits: 5

Course Title: Coordinated Internship in Health Science

Course Description: Supervises on-the-job training in selected business, industrial, or service firms coordinated by the college. Provides a health care work/volunteer experience for students pursuing the Health Science I Career Studies Certificate program and orientation to the workplace. Prerequisites: SDV 100 or SDV 101, HLT 105, ENG 111, HLT 145, and one BIO course. Laboratory 15 hours per week.

General Course Purpose: This course is a culminating experience for students enrolled in the Health Science I CSC who are not completing a clinical program and prepares students for entry into the health care workforce. Students must 1) contact the program head for permission to register and 2) must have completed required prerequisite courses. An orientation to the workplace is required prior to the workplace experience. A criminal background and drug screening are required for health care facilities. Background check must be free of any barrier crimes.
