

Free Online Tutoring:
Anywhere, Anytime!!

What is Smarthinking?

An online tutoring service that allows students to connect with a tutor and interact in real time on a wide range of subjects, including math, science, business, information technology, and writing. Check out www.smarthinking.com for more information.

Who Can Use It?

Any student currently enrolled in Reynolds courses.

In What Subject Is Tutoring Available?

Writing, Reading, Mathematics, Science, Business, English for Speakers of Other Languages, Spanish, Nursing and Allied Health, Computers and Technology. See <http://www.smarthinking.com/services-and-subjects/subjects/> for more information.

How Do Students Use It?

Students log in to Blackboard and click into any of their Reynolds courses. Under **Course Tools**, they will find a link for **Smarthinking**, which connects them to the **Smarthinking** web site.

Where Can Students Learn More?

When they log in to **Smarthinking**, they will find many additional resources to help them use Smarthinking effectively.
