

1:00PM-4:00PM, GH Gymnasium
AHA Heartsaver CPR Course for Professional Development

Preregistration required.
[Sign up here!](#)

Reynolds Community College is pleased to offer the American Heart Association (AHA) Heartsaver CPR course as part of our professional development opportunities. This course is designed for individuals with little to no medical training who need CPR certification for work or personal development.

Please note: This course does not meet requirements for Healthcare professionals (EMS, Nurses, FF) needing BLS Certification for patient care.

1:00PM-4:00PM, MASSEY LTC (Basement level)
LRC Open House

For all faculty! Do you want to know more about the most current academic support available to your students? Want to discuss how to get embedded tutoring in your classes? The Learning Resource Centers will be open to faculty during this period to work on class materials and set up services.

Bring your laptop or work at one of our desktop stations and we will be happy to work with you to update your courses. Staff from the Library, Tutoring Services, Math Central+, and Writing Studio will all be there to help!

1:00PM-4:00PM, BH200 (General) & BH202 (A/V specific)
DOT Open House

Bring your questions and explore how DOT can support your technology needs and innovations!

1:00PM-4:00PM, MASSEY LTC138
CETL Drop-Ins

Accessibility updates drop-in
 also available [via Zoom](#)

Drop in to get 1:1 advising on accessibility updates, Canvas, TILT, Lucid (Jamboard), RSI, and more!

1:00PM-2:15PM, BH178 and [Zoom](#)
Underlying Mental Health Challenges in the Classroom
 Mary Gerber

This session teaches recognizing clinical manifestations of common mental health issues, understanding the mental health challenges of today's community college student, and how to communicate empathy and understanding that empowers students to be successful.

Attendees will leave with three therapeutic communication techniques to apply in the classroom.

2:30PM-4:00PM, BH178 and [Zoom](#)
Supporting the Neurodiverse Student
 Nancy Bailey

This training introduces the concept of neurodiversity and explores strategies for supporting neurodivergent students both in the classroom and individually.

Participants will engage with student scenarios to apply what they've learned, and additional resources for ongoing support and learning will be provided.

1:00PM-2:15PM, BH180 and [Zoom](#)
An Introduction to Teams Phones
 DOT

Join our session to learn how to make and receive calls using Microsoft Teams! This session will guide you through the process of setting up and managing calls, ensuring you stay connected. Get hands-on tips and tricks to make the transition smooth and efficient—perfect for anyone adapting to this new system!
